The DV 22 is the flagship model multi-species boat designed and built by legendary marine industry pioneer Earl Bentz. The DV 22 is available in three deck configurations to tailor to the specific needs and targeted species of anglers. This boat was designed to provide a smooth dy ride in rough water while also outpacing the competition with industry leading top-end speed and performance. Simply put, the DV 22 is most innovative multi-species boat that has ever been built.

The fishability of the DV 22 is second to none, the boat offers oversized compartments to store rods up to 10 feet in length, and built-in tackle stations in the cockpit area of the boat for easy access to your most used baits and lures.

Caymas has quickly built the reputation of building the highest quality boats available on the market today, and the DV 22 is no exception. The manufacturing team averages 30+ years in the industry. All of our boats are built with the best components available, and our fit-and-finish is second to none.

STANDARD FEATURES

THE DV 19 IS THE PERFECT BOAT FOR ANGLERS WHO DEMAND EXCEPTIONAL PERFORMANCE IN A SMALLER, MORE AGILE PACKAGE.
